DFC-M/14 14 Head Multi-Head Weigher

Application:

Capable of automatically weighing various granular products in the food or non-food industries, such as potato chips, nuts, frozen food, vegetable, sea food, hardware products, polymers etc.

Features:

1. IP65 waterproof design, to allow for full wash down to save time while cleaning.
2. Modular control system creates more stability and lower maintenance costs.
3. Production records can be checked at anytime or download to a PC.
4. Load cell or photo sensor checking to satisfy different requirements.
5. Preset stagger dump function to stop blockage.
6. Custom built linear feeding pans to control granule products during production.
7. Food contact areas can be disassembled without tools, which saves time during clean downs.
8. Multi-language touch screen.
9. PC monitor production status, clear on production progress (Option).

Specifications:

Model DFC M-14
Weighing Range 10-2000g
Max. Speed 100 bags/min
Accuracy + 0.1-2.0 grams
Weigh Bucket 2.5L
Control Panel 10.4" Touch Screen
Power Supply 220V/50HZ or 60HZ; 10A; 1000W
Driving System Stepper Motor
Packing Dimension up to 1700L*1100W*1100H mm
Gross Weight 550kg
